DETAILED ACTION

Drawings

The drawings were received on 7/13/2005. These drawings are acceptable.

Response to Arguments

Applicant's arguments, filed 7/13/2005, with respect to amended claims have been fully considered and are persuasive. The rejections and objections of claims 1-6 have been withdrawn.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert Kestenbaum (Reg. No. 20,430) on 9/30/2005.

The application has been amended as follows:

In Claim 1, line 7, the word --optionally-- has been deleted.

In Claim 1, line 12, the word "this" has been replaced by --said flat region--.

In the Abstract, lines 4, 7, and 13, the word "means" has been replaced by the word --device--.

Art Unit: 2872

In the Abstract, line 10, the word "Said" has been replaced by the word --The--.

Allowable Subject Matter

Claims 1-6 are allowed.

The following is an examiner's statement of reasons for allowance: Though the prior art discloses a device for optically capturing objects, comprising a support surface on whose first side an object can be placed, a light source which is provided for emitting illuminating beams in the direction of the support surface and which, in a first position, is arranged relative to the support surface, and a capturing means which is provided for capturing the object placed on the support surface and for converting the image of the capture object into electrical signals and which, in a second position, is arranged relative to the support surface, wherein the first side of the support surface, on which the object can be placed, faces the illuminating beams and the capturing beams, characterized in that the first side of the support surface has a flat region, the prior art of record fails to teach or suggest the aforementioned combination further comprising adjacent to said region, a section which is provided with a curvature determined by the two positions and which is arranged in such a way that the illuminating beams are reflected by the section in the direction of the capturing means substantially only in a diffuse.

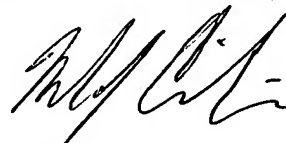

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
